Vitamin B12 deficiency and infertility:

[http://www.biomedexperts.com/Abstract.bme/1672674/Vitamin\\_B12\\_deficiency\\_and\\_infertility\\_report\\_of\\_a\\_case](http://www.biomedexperts.com/Abstract.bme/1672674/Vitamin_B12_deficiency_and_infertility_report_of_a_case)

Hypercoagulable thrombophilic defects and hyperhomocysteinemia in patients with recurrent pregnancy loss. Evaluation of the prevalence of heritable thrombophilic defects (protein S, protein C, anti-thrombin III deficiency, and the mutations for factor V Leiden, methylenetetrahydrofolate reductase [MTHFR], and prothrombin gene), hyperhomocysteinemia, and combinations of these pathologies in 36 non-pregnant recurrent aborters compared with 40 parous women:
