

Inborn errors of B12 metabolism

2003: Transcobalamin and methionine synthase reductase mutated polymorphisms aggravate the risk of neural tube defects in humans.

www.ncbi.nlm.nih.gov/pubmed/12812837/

2005: Transcobalamin 776C3G polymorphism negatively affects vitamin B-12 metabolism1–3

<http://ajcn.nutrition.org/content/81/6/1436.full.pdf>

2008: Common variants of FUT2 are associated with plasma vitamin B12 levels

www.ncbi.nlm.nih.gov/pmc/articles/PMC2673801/pdf/nihms86874.pdf

2009: Genome-wide significant predictors of metabolites in the one-carbon metabolism pathway. (TCN1)

www.ncbi.nlm.nih.gov/pubmed/19744961?dopt=Abstract

2010: Genetic disorders of vitamin B12 metabolism: eight complementation groups – eight genes

www.ncbi.nlm.nih.gov/pmc/articles/PMC2995210/pdf/S1462399410001651a.pdf

2012: Structural features of recombinant MMADHC isoforms and their interactions with MMACHC, proteins of mammalian vitamin B12 metabolism.

www.ncbi.nlm.nih.gov/pubmed/22832074/

2012: Mutations in ABCD4 cause a new inborn error of vitamin B12 metabolism.

www.ncbi.nlm.nih.gov/pubmed/22922874/?i=4&from=b12%20AND%20abcd4

2013: Molecular and cellular effects of vitamin B12 in brain, myocardium and liver through its role as co-factor of methionine synthase.

www.ncbi.nlm.nih.gov/pubmed/23415654/?i=2&from=mtr%20and%20b12

2013: Lessons in biology from patients with inborn errors of vitamin B12 metabolism.

www.ncbi.nlm.nih.gov/pubmed/23402785

2013: Vitamin B12 absorption: mammalian physiology and acquired and inherited disorders.

www.ncbi.nlm.nih.gov/pubmed/23178706

2013: Proteomics of vitamin B12 processing.

www.ncbi.nlm.nih.gov/pubmed/23241609

2013: Cobalt: its role in health and disease.

www.ncbi.nlm.nih.gov/pubmed/24470095

2013: Disorders of Intracellular Cobalamin Metabolism

www.ncbi.nlm.nih.gov/books/NBK1328/

2013: Genetic architecture of vitamin B12 and folate levels uncovered applying deeply sequenced large datasets.

www.ncbi.nlm.nih.gov/pubmed/23754956/

2013: An X-linked cobalamin disorder caused by mutations in transcriptional coregulator HCFC1.

www.ncbi.nlm.nih.gov/pubmed/24011988/

2014: Maternal micronutrient imbalance alters gene expression of BDNF, NGF, TrkB and CREB in the offspring brain at an adult age.

www.ncbi.nlm.nih.gov/pubmed/24462543/

2014: A novel mutation of the transcobalamin II gene in an infant presenting with hemophagocytic lymphohistiocytosis.

www.ncbi.nlm.nih.gov/pubmed/24563082/
